Summary

B.E. Computer Engineering student (CGPA: 9.21/10) with hands-on experience building full-stack applications using Java, Python, JavaScript, React.js, Node.js, Spring Boot, FastAPI, and MongoDB. Skilled in REST API design, backend architecture, and DevOps tools such as Docker and Redis, with additional experience applying AI/ML techniques (NLP, OCR, computer vision, deep learning) to real-world problems including healthcare diagnostics and HR analytics.

Education

Pimpri Chinchwad College of Engineering & Research, Pune <i>Bachelor of Engineering in Computer Engineering (CGPA: 9.21/10)</i>	2024 – 2027
SMDR Government Polytechnic, Dhule <i>Diploma in Computer Engineering (92.06%)</i>	2021 – 2024

Technical Skills

Languages: Java, Python, JavaScript, C, C++

Frameworks: React.js, Node.js, Express.js, FastAPI, Spring Boot

Databases: MongoDB, MySQL, PL/SQL, Redis

Cloud & DevOps: AWS EC2, AWS S3, Docker

Developer Tools: Git, GitHub, VS Code, Android Studio, Eclipse, Postman

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, REST APIs, System Design

AI/ML: Machine Learning, Scikit-learn, Pandas, NumPy, NLP, OCR, TensorFlow, Keras, OpenCV, PCA

Experience

MERN Full Stack Intern – EduSkills (AICTE) (Remote)	Jan 2026 – Mar 2026
- Engineered scalable MERN-stack applications (React.js, Node.js, Express.js, MongoDB) with secure, RESTful API integration. - Improved backend performance and database reliability through systematic debugging and API optimization.	
Java Development Intern – Codetech IT Solutions (Remote)	Jan 2026 – Feb 2026
- Developed Java applications applying object-oriented programming principles and efficient data structures. - Conducted debugging, testing, and performance tuning while adhering to clean coding standards.	

Projects

Cervical Cancer Classification using Hybrid Deep Feature Fusion	<i>Python, TensorFlow, Keras, OpenCV, PCA, Scikit-learn</i>
- Built a hybrid deep feature fusion model combining multiple CNN architectures with PCA-based dimensionality reduction to classify Pap smear images, achieving 92%+ classification accuracy. - Preprocessed and augmented 5000+ medical images using OpenCV, reducing diagnosis time and improving screening reliability.	
Intraday Option Chain Analytics System	<i>Python, Pandas, NumPy, NSE API, SQLite, Matplotlib</i>
- Designed an intraday analytics system using Python and the NSE API to compute strike-wise Put-Call Ratio (PCR), automatically storing 1000+ records/day. - Created Matplotlib dashboards visualizing PCR trends across 20+ strike prices for support and resistance analysis.	
MedIntel – AI-Powered Healthcare Platform	<i>Python, FastAPI, React.js, MongoDB, NLP, OCR</i>
- Architected a microservices-based platform with 30+ REST API endpoints and a Clinical Rules Engine mapping 7 symptom categories to 20+ diagnoses using NLP and OCR for automated medical report analysis. - Delivered 21 UI screens/components localized across 5 languages (English, Hindi, Tamil, Telugu, Marathi), with JWT-secured FastAPI APIs and MongoDB for patient management.	
TalentPulse – AI Employee Attrition Prediction	<i>Python, FastAPI, React.js, Scikit-learn, MongoDB</i>
- Developed a full-stack HR analytics platform (React, FastAPI, Random Forest) achieving 80%+ attrition prediction accuracy, with 4 REST APIs classifying employees into low-, medium-, and high-risk categories across 10 HR attributes. - Implemented 6 interactive modules and 6 data visualizations (Recharts) covering employee search, CSV/Excel upload, and workforce analytics dashboards.	

Technical Achievements

- Solved **200+ LeetCode** problems spanning Trees, Graphs, Dynamic Programming, Greedy, Backtracking, Trie, and Binary Search.
- Built **4+ full-stack and AI-powered applications** using FastAPI, React.js, Java, Android, MongoDB, and Machine Learning.
- Maintained a **9.26 CGPA** in B.E. Computer Engineering and a **92.06%** score in Diploma.
- Shortlisted at the **college level** for Smart India Hackathon (SIH) 2025.

Certifications

- AWS Cloud Certification – Amazon Web Services (2026)
- MERN Full Stack Internship – EduSkills (AICTE) (2026)
- Java Development Internship – Codetech IT Solutions (2026)
